Fourteen Feet in Length Longest Ever Filed in State of Nevada

Reno, Nev., April 27.-A complaint ourteen feet in length, without doubt the longest complaint ever filed in Nevada, was placed on record this after noon by Attorney Ayres, representing the Postal Telegraph company, which is suing the Southern Pacific company for a right of way along the line of railroad across Nevada, and seeking to have the land needed for digging holes for the poles condemned.

The land to be condemned consists of a series of holes one foot in diameter and from four to five feet in length at an interval of 150 feet along the right of way of the railroad company from the California to the Utah line a distance of 450 miles. The plaintiff company says it wishes to operate a telegraph line across the state and maintains that the use to which the ground sought to be condemned will be more beneficial to the general public than the use to which it is being put at present.

The line will be so constructed as not to interfere with the business of the railroad company. The com-pany asks for condemnation and the appointment of appraisers to set a valuation on the land. Powers and Marioneaux of Salt Lake, are asso-clated with the local attorney for the

CONSTITUTION BLOCK THREATENED BY FIRE

Good Work of the Department Pre vents Spread of Blaze.

Salt Lake, April 28.-Fire, which for while threatened the destruction of the Constitution block, broke out in the basement of that building, which is occupied by the Great American Tea Importing company, about 5 o'clock Tuesday morning, causing a loss that will approximate close to \$2,000 Except for the efficient service of the fire department and the valiant efforts of Chief W. H. Glore, the entire block would probably have been re duced to a heap of ashes.

The fire was first discovered by the janitor of the Central Coal & Coke company's building, and he immediately turned in the alarm. Immediately following this an alarm was turned in by Night Watchman Robert Nel-The entire apparatus from the central station responded. When the department arrived the basement of the building was filled with dense smoke, volumes of which were issu-ing from the windows. Almost the entire basement occupied by the tea company was in flames.

Salt Lake, April 28.-Mrs. Amanda J. Ross Ramsey, mother of Mrs. Em-ma Ramsey Morris, the famous Salt Lake singer, and wife of the late George W. Ramsey, died at the home of her daughter, 127 South Second West street, Tuesday morning from pneumonia. Mrs. Ramsey was 68 years of age and for the last twentynine years had been a resident of Utah. Her death was very sudden, as she had only been ill since last Sunday night.

Mrs. Ramsey was born in Rochester, Ind., September 6, 1840. She married Mr. Ramsey in 1862. In 1880 the family came to Utah, settling at Payson. Later they moved to Provo, and for some time past Mrs. Ramsey had been living with her daughter, Mrs. Morris. She is survived by seven children, four daughters and three sons; namely, Mrs. Emma Ramsey Morris of this city; Mrs. Mattie R. Stark of Los Angeles, Mrs. Rhoda R. Carroll of Grass Valley, Cal., Mrs. Julia R. Brown and Frank R. Ramsey, of Provo; George L. and L. A. Ramsey of this city.

David Eccles Relates His Experience in Making Lumber Shipments

Salt Lake City, April 27.—The in-roduction of testimony in the suit of the United States government to dis-solve the alleged illegal combination of the Union Pacific, Southern Pacific and affiliated lines for the purpose of crushing out competition, was be this city today before Special Examiner Sylvester G. Williams. The gov ernment was represented by C. Severance of St. Paul, Glen E. Hus-ted of Washington, and Charles A. Page of New York, and the interests of the rallway companies were cared for by R. S. Lovett of New York, chief counsel of the Harriman system, and N. H. Loomis

W. S. McCarthy, traffic manager of a local hardware company and a form-er railroad man, testified that in the railway merger in 1891, competition for general merchandise and wool bus ness was keen between the Union Pacific and Southern Pacific agents. but that since the alleged combination was effected no special effort had been made so far as he was aware of to secure the routing of business over either one of these lines, as the business is handled, according to his un-derstanding, over the line most convenient. He also testified that after the alleged combination, the freight time schedules between Omaha and Utah had been doubled and that the length ened schedule was not always main tained.

S. H. Babcock, manager testified along similar lines and described methods before the merger. He said: "One company even went so far as to pay a government tax on sheep between the states of Idaho and Mon tana in order to get the shipping of

Mr. Babcock said that the San Pe dro, Los Angeles and Salt Lake had refused to quote a through rate to San Francisco, and had informed him that the rate on freight shipments to Daggett, Cal., and thence by the Santa Fe to San Francisco would be the sum of the local rates. The con clusion reached by the witness was that the only rate obtainable from Salt Lake is on the Southern Pacific. He was questioned regarding the method of making through rates and said that the rates were fixed by the freight as-sociation in secret session, the details of which he preferred not to give.

David Eccles, a business man, told of his experience in making lumber shipments from Hood River, Ore. Formerly he shipped via the Oregon Short Line to Wells, Nev. Now he was obliged to use the Shasta route and the Southern Pacific, the Oregon Railroad and Navigation, and the Oregon Short Line, refusing to quote him any rate through Ogden. He had re-

monstrated and the only explanation he could get was that the Southern Pacific preferred the long haul.

Mr. Eccles went into the origin of the San Pedro, Los Angeles and Salt Lake road. In the nineties, he had been interested in the building of 66 miles of railroad from Milford, Utah, to Uvada, on the Nevada line. The Oregon Short Line had taken an option on the grade, but had not exercised the option until Senator W. A. Clark began to negotiate for it as a part of his Los Angeles road. Then the Short Line made the purchase. Mr. Eccles' testimony is important, chiefly as a foundation for the evidence that is to come regarding the relations of the Clark road with the Harriman system.

JONES PUT UP A SUBSTITUTE And Incidentally Got Reputation After-Dinner Speaker.

"If there is one thing I hate," re marked Mr. Jones, "it is after-dinner speeches. Well, once I found myself at a big banquet, where I knew very few of those present. "'We have with us to-nightheard the old, hated formula roll out unctuously from his lips-and then my own name-'Mr. Jones, the well-

which is Jones?-where is Jones?' "A brilliant idea came to me. Sit ting close beside me was a little man who dearly loved speechifying. Like a flash I jumped to my feet. 'Jones? Why, here's Jones!' I cried, and clapped the little Demosthenes on the shoulder. Then I yanked him to his feet, murmuring in an ominous sotto voce: 'Don't give me away; speak

now! "He spoke. And, in the guise of myself, he made a most successful little oration. There was loud applause and much shouting of 'What's the matter with Jones? He's all right!'

"As for me, I sipped wine and gradually recovered from the nervous shock occasioned by my narrow escape from being eloquent."
